

## **Just Kids Programs**

### **Pre-School Parent Agreement**

Just Kids is licensed by the NJ Office of Licensing as a School-Age Child Care program. Under the definition of “school-age child care program” in the licensing Manual of Requirements, it states that we can serve preschoolers that are being educated in the public school.

With preschool children, however, there are a few restrictions based upon these licensing requirements:

1. The child must attend the public school system at which the Just Kids program operates.
2. Preschool students can only actually attend the program up to three and a half hours per day. This total number of hours includes any hours, whether morning or afternoon session, each day.
3. The child must be consistently potty-trained. Unfortunately, Just Kids does not have the proper equipment or changing area to change pullups for children in a hygienic or appropriate manner.

I have read and agree to abide by the above restrictions to my child’s enrollment in the Just Kids Program. I know that my child’s attendance will be monitored and that Just Kids retains the right to terminate services, if this agreement is not upheld.
